

INFRASTRUCTURE UPDATE

Inflow & Infiltration Reduction: Northern Basin Project 1

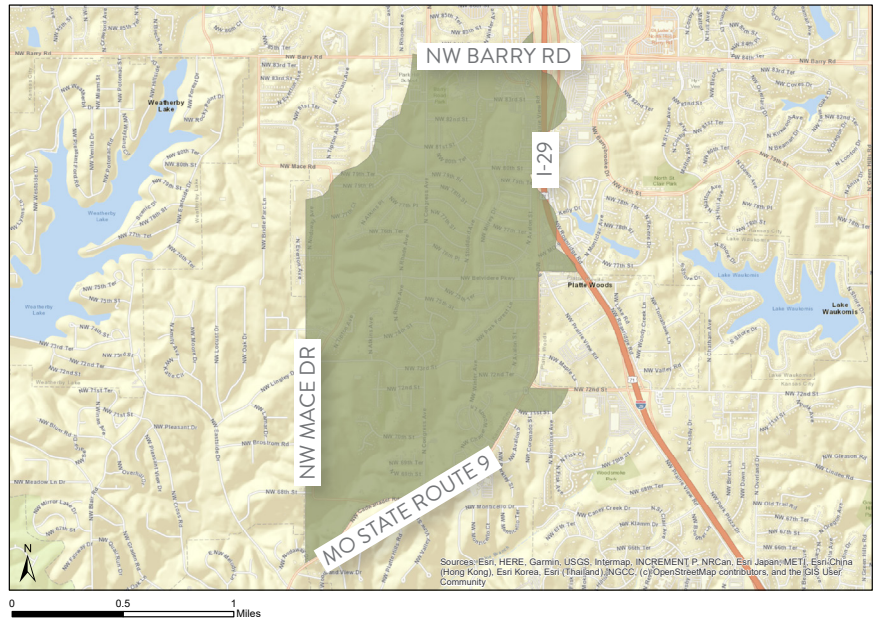

CONSTRUCTION TIMELINE: JUNE 2024 – JULY 2025

KC Water is working to construct important improvements to the wastewater system in your neighborhood. This project will include the rehabilitation of sewer mains, service lateral connections, and manholes in your area to like-new conditions. When complete, the project will improve the capacity of the wastewater collection system and reduce the volume of sewer overflows into local waterways and the potential for basement backups.

Project Area

THIS PROJECT IS LOCATED NORTH OF THE MISSOURI RIVER. THE BOUNDARIES ARE:

- NORTH: NW Barry Road
- SOUTH: MO State Route 9
- WEST: NW Mace Drive
- EAST: I-29

Inflow & Infiltration Reduction: Northern Basin Project 1

WHAT'S BEING DONE?

This project includes rehabilitation and/or replacement of approximately:

- 29,000 linear feet of sewer main
- 470 service lateral connections
- 370 manholes

WHAT'S THE TIMELINE?

Construction began in June 2024 and is expected to be completed by July 2025.

WHAT CAN YOU EXPECT?

We appreciate your support and patience as we work to complete this important community project. Customers will be notified in advance of pending activity, which may include:

- Large equipment creating noise and dusty conditions
- Temporary street and lane closures
- Temporary sewer service disruptions

WHO'S DOING THE WORK?

KC Water will be assisted by its program manager, Burns & McDonnell, its design professional, GBA, and its construction contractor, Havens Construction.

WHAT'S THE CONTRACT AMOUNT?

The total budget for this project is approximately \$7,400,000.

WHY IS THIS WORK BEING DONE?

In 2010, the City of Kansas City, Missouri entered into a federal Consent Decree with the United States Environmental Protection Agency to reduce the volume of overflows from the City's sewer system. KC Water's Smart Sewer program is a 30-year effort to address this challenge. The Northern Basins 1 Inflow & Infiltration Reduction Project is one of more than 100 projects being implemented by the Smart Sewer program and is required by the Consent Decree to be completed by December 2027.
